Similarly to the recent years: dedicated wrist GPS and GPS trackers attached to an arm, including sensors, are allowed as long as they are used to generate a history track, including any other data, for later reviewing after finishing the race. Even though the units might be able to display a path, the runner is not permitted to make use of that function during the race. Both still cameras and video cameras are allowed as long as they comply with the aforementioned rule. In simple words, the device should not possess any mapping and/or communication feature.

In a case of a severe thunderstorm, the Chairman of the Jury may recall the competition (27.5 of the Rules)—in such case, it will be announced to competitors by switching off all the transmitters with an exception of the beacon and Tx No. 1 (MOE, not necessarily the one placed in terrain) which both remain operating continuously. ### **Leisure**

#### **Cultural program**

During the rest day there will be several cultural program possibilities available:

- Guided cruise along the Nemunas river to Liškiava. Liškiava is an old village situated on the right bank of the river Nemunas. There you can discover architectural monuments of state significance: a late Baroque church and former Dominican monastery, a rock with a "bull's footmark", also, a mound dating from the beginning of 15th century with ruins of a castle tower and a sacrificial hill. Duration of the trip ~ 3 hours.
- Excursion to soviet sculpture museum "Grūtas Park". In Grūtas Park, monumental sculptures are positioned in a 2 km-long exposition, where guard towers, fragments of concentration camps and other details resemble Siberia. Grūtas Park is situated on a 20 ha area, exhibiting 86 works by 46 authors. Such a large concentration of monuments and sculptures of ideological content in a single out-door exposition is a rare and maybe even unique phenomenon in the world.

Indoor downhill skiing. Information will be published later.
